

TWO YEAR OLD BULLS

These coming two year old bulls were selected last spring from the top end of our March and April yearling bulls. Included in this unparalleled offering are a number of bulls used to breed cows and heifers in the Stevenson Genetics herds. These bulls were raised from birth to weaning without creep. From weaning these animals were fed a high roughage growing ration.

The catalog provides complete performance information for each bull. An explanation of the information is printed on page 2. Bulls are put into contemporary groups at weaning based upon their ranch origin and the conditions they were raised under, maintaining these groups through yearling and ultrasound makes the data and ratios provided more meaningful to our customers. Because they are in different contemporary groups though, a ratio of 100 will not necessarily correlate to the same weight between the different groups.

These bulls are guaranteed breeders. They have all passed a breeding soundness evaluation including a semen test. All bulls offered in the sale have tested BVD-PI negative. All non-virgin bulls are indicated in the footnotes and have been trich tested per current Montana requirements. Current weights and scrotal measurements will be available on sale day.

For buyers wishing to purchase closely related bulls, many full, three-quarter and one-half brothers are offered in this sale. This line-up includes:

57 sons and grandsons of VERMILION PAYWEIGHT
8 other DATELINE bred bulls

24 MONEYMAKER sons along with
37 BOYD ON TARGET 1083 sons and grandsons

34 BASIN MAX 602C sons or grandsons
including 23 21AR COAL BANK C014 sons

14 FOCUS bred bulls

RETAINED INTEREST – we are selling FULL POSSESSION and ½ REVENUE-SHARING INTEREST in every bull in this sale. The bull you purchase is completely in your control regarding how you handle the bull and your natural service use. You receive 100% salvage value of the bull. Retaining ½ revenue-sharing semen interest simply allows Stevenson Genetics the right to share in collection of semen, use of semen in our herds and the right to share in semen sale revenue if semen sales become a possibility.

Realistically, we will collect semen on a very small percentage of the bulls selling. It will be an even smaller number of bulls that will market semen. However, we realize that many promising bulls are identified after they have proven themselves in natural service. If you have any questions or concerns about our retained interest policy, please contact any Stevenson Genetics representative.

LOT 1 is a deep, thick, massive herd sire that is moderate framed and a very complete bull. He recorded impressive ratios of 109 NR and 113 YW and is the type of a bull that a cattleman looking for volume, depth of body, thickness, and fleshing ability will just love. LOT 1 ranks in the top 15% for YW, top 25% for WW and top 15% for \$F index. He recorded a 40 cm. scrotal at a year of age and he bred 30 cows and came back in amazing condition.

LOT 5 is massive in body and volume. He is a calving ease bull that will add performance, substance and fleshing ability. His dam was one of our best, an absolutely powerful individual. As our highest producing EXPEDITION daughter, she offered extra muscle and dimension all combined with the refined udder quality and maternal traits known for that bloodline. She eventually recorded 6 NR 112, 5 YR 112 and 20 IMF 104. The sire of LOT 5, IN FOCUS, has shattered every beef semen sale record for ABS Global. LOT 5 ranks in the top 25% for WW EPD and top 10% for YW EPD along with a top 15% for MILK EPD and 30% for MARB EPD. LOT 5 was used in natural service at Stevenson Angus.

Another standout, LOT 7 is a leading herd bull candidate. He is a calving ease bull that ranks in the top 15% for both WW and YW EPDs. He recorded 107 REA. His dam is an outstanding female from a high production family where his first three dams record 3 NR 104, 3 YR 104 and 6 NR 102, 6 YR 103 and 11 NR 102 with 10 YR 99. IN FOCUS crossed with ON TARGET daughters has been a very successful combination, offering the best of both bloodlines. LOT 7 was used in natural service at Stevenson Angus.
