Angus  
Salvage

48<sup>th</sup> Annual Production Sale

**Sale Day Phone Number**  
(406) 423-5750

100 Registered Angus Females sell on  
**Sunday, November 30, 3:00 p.m. (mst)**  
Please see our separate Sunday cow sale book.

1900 Commercial Females & 750 Bulls sell on  
**Tuesday, December 2, 8:00 a.m. (mst)**

## Sale Location

The Original Stevenson Sale barn is 1.5 miles south of Hobson.  
See map back cover.

## Auctioneers

Joe Goggins and Roger Jacobs

## Sale Staff

Jerry Gliko..... Western Livestock Journal  
John Goggins..... Western Ag Reporter  
Eric Mack ..... Western Beef Producer  
Don Ravellette ..... Cattle Business Weekly  
Don Rehm ..... Special Assignment  
Andy Rest ..... Angus Journal  
Terry Robinson ..... Farm & Ranch Guide  
Jeff Thomas..... Prairie Star and Montana Angus News

## Superior Livestock Auction

Sunday's sale will be broadcast on  
www.SuperiorLivestock.com only.  
Tuesday's sale will be broadcast on  
www.SuperiorLivestock.com and  
RFD-TV, Dish Network channel 231  
and Direct TV channel 379. A preview on a per lot basis is  
available at www.SuperiorLivestock.com as well as our website,  
www.StevensonGenetics.com. For a buyer's number or  
additional information regarding our satellite sale, please call  
Superior at Fort Worth, TX 1-800-431-4452.

## Sale Order

Cattle will sell in consecutive catalog order.

## Sight Unseen Purchase Guarantee

Sale Day Phone - (406) 423-5750. Buyers unable to attend the  
sale may call or send their bids to any of the Representatives  
listed or directly to Stevenson Genetics. We provide a complete  
satisfaction guarantee for cattle purchased in this manner.  
When cattle purchased "sight unseen" are delivered, the buyer  
can inspect the cattle. If they are not as represented, simply  
put them back on our truck.

## Transportation

Billings and Great Falls are both served by several major  
airlines. Lewistown now services a direct flight from Denver  
with Great Lakes Air. Private planes may land at the Lewistown  
Airport. Please contact Stevenson Genetics in advance for  
transportation from the Lewistown Airport.

## Accommodations

The following motels are located in nearby Lewistown. For  
reservations, contact either the Stevensons or the motel of  
your choice. Remember to ask reservation departments for  
Stevenson Genetics Sale rates.

Yogo Inn .....1-800-860-9646  
Super 8 Motel ..... 406-538-2581  
B&B Motel ..... 406-538-5496  
Mountain View Motel .....1-800-862-5786  
Meadow Brook B&B (Hobson) ..... 406-423-5537  
Gumbo Flats B&B (Hobson) ..... 406-423-5565  
Hughes Mountain Ranch (Stanford) ..... 406-566-2640

## Announcements

Announcements from the auction block take precedence over  
any printed material.

## Herd Health

All cattle will sell with proper health papers for interstate  
shipment.

## Payment

Payment is due in full sale day unless prior arrangements have  
been made. Interest will be incurred on over due accounts.  
Even if an invoice is to be sent, please check in at the office.

## Delivery

See our new bull and commercial female delivery policy on  
page 3. For all cattle purchased over the phone or through  
Superior Livestock, Stevenson Genetics will be in contact  
following the sale to arrange delivery and payment.

## Wintering

Wintering arrangements are available on bull calves. The cost  
is \$250 per head from sale day until after our March sale.

## Inspection of Cattle

Our cattle are available for inspection at the ranches any time.  
We invite you to come before the sale to visit, see the sale cattle  
and view our cow herds.

## Food

Dinner will be provided the evening of Sunday, November 30  
following the Registered Female Sale. Breakfast, lunch and  
dinner will be provided Tuesday, December 2.

## Terms and Conditions

The cattle sell under the suggested terms and conditions of  
the American Angus Association.

Commercial Bred Females and Two Year Old Bulls — Tuesday, December 2, 8:00 a.m. (mst)  
Yearling Bulls — Tuesday, December 2, immediately following Commercial Bred Females

## INSURANCE

The insurance companies that we have worked with the last few years have discontinued "loss of use" coverage.

With the reality that sometimes young bulls become injured during their first breeding season, we have worked to come up with a fair and reasonable way to share the risk with our bull customers. With customers that wanted the "loss of use" insurance we shared one-half the premium cost for coverage on the bulls to lower your risk. We have decided to continue sharing one-half the risk during this transitional period with the breeding guarantee described to the right.

Mortality insurance will still be available. **We ask that you insure any bulls that are left here to be wintered**, we are then both protected from any unforeseen incidents. An insurance representative will be here on sale day to help you with your insurance needs.

## FIRST YEAR BREEDING GUARANTEE

All bulls selling for \$2000 or more will be covered 50% by Stevenson Genetics if they are injured during their first breeding season and not able to return to service during that first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Stevenson Genetics and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2009.

*Example 1:* A \$5,000 bull is injured, a credit of \$2,500 minus one-half any salvage value will be given to the buyer.

*Example 2:* A \$2,000 bull is injured, a credit of \$1,000 minus one-half of any salvage value will be given to the buyer.

*Example 3:* A \$1,750 bull is injured, no credit is given. Buyer retains all salvage value.

## **How to Read the Information Printed with Each Sale Lot**

Complete performance information is provided for each animal. The ratios are calculated in separate contemporary groups by ranch and conditions they were raised under, so that a ratio of 100 will not necessarily correlate to the same weight between the different groups. We have calculated interim EPDs for cattle that do not yet have official EPDs. Expected Progeny Difference (EPD) is the estimate of how future progeny of each sire are expected to perform in each of the traits listed. EPD is expressed in pounds, either plus or minus. For example, when used on the same cows, calves sired by a bull with a +40 weaning EPD should average 10 pounds more than those sired by a bull with a +30 weaning EPD.

**Birth (BW) EPD** is a predictor of progeny birth weight attributed to the parent.

**Weaning (WW) and Yearling (YW) EPDS** are predictors of the animal's ability to transmit weaning growth and yearling growth to its progeny.

**Milk EPD** is a predictor of an animal's genetic merit for milk and mothering ability.

**1 STEVENSON ON TRACK T563**

STEVENSON BEAUTY S71J

Birth Weight	<b>86</b>	Weaning Ratio	<b>119</b>	Dam's Production	<b>1 NR 119</b>	Yearling Ratio	<b>118</b>
BW	<b>+1.6</b>	WW	<b>+55</b>	Milk	<b>+25</b>	YW	<b>+102</b>
CE	<b>★★★★</b>	Marb	<b>+0.09</b>	RE	<b>+0.05</b>	\$B	<b>32.59</b>

**Birth Weight (actual), Weaning Ratio and Yearling Ratio** as computed for use in within-herd comparisons. Animals produced by embryo transplant will have an "ET" in place of a ratio.

**Dam Production** is the number of calves and average nursing ratio for all calves raised by the dam of the animal.

**\$B (Beef Value)**  
An index value expressed in dollars per head, the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

**Calving Ease Rating (CE)**

- ★★★★ Excellent calving ease, use with confidence on any type of heifers.
- ★★★ Superior calving ease, should work with most heifers and most situations.
- ★★ Moderate calving ease, most people will use these bulls on cows, but they can be used on heifers if calving ease is of less concern.
- ★ We recommend these bulls just for use on cows.

**EPDs for Carcass Merit based on the Ultrasound Evaluation System**

**Marb EPD**  
Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**RE EPD**  
Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

# CATTLE DELIVERY

Stevenson Genetics is adding a delivery section to check-out this year. We encourage all of you to stop by and coordinate plans before leaving the Sale. If you are buying off-site, please let us know of any special instructions as soon as you can. Otherwise, the Delivery Department will contact you regarding date of delivery. Our goal is to have all non-wintered cattle delivered by December 15. Your cooperation on taking delivery is greatly appreciated.

## **Registered Female Delivery**

Stevenson Genetics is glad to help coordinate delivery arrangements for your registered cow purchase. The cost incurred would be at your expense. Please make arrangements on Sale day as to how you would like this handled.

## **Commercial Female Delivery**

All Commercial females must be delivered within 2 weeks of the sale. They have been tested negative for Brucellosis prior to the sale, and the test is only valid for 30 days. Stevenson Genetics will help to arrange trucking if you would like, or we can provide truckers names and numbers for you. Your cooperation is appreciated on taking delivery in this timely manner.

## **Bull Delivery**

Stevenson Genetics would like to deliver all the cattle personally, however due to the cost of travel, we employ reputable trucking firms to assist us in the delivery process. Our goal with the current delivery policy is to limit the number of stops the cattle have to make before their final destination. We also need to keep the cost of delivery reasonable enough to continue the current policy. Thank you for your understanding.

Stevenson Genetics will help coordinate delivery of all cattle as soon as possible after the sale. All two year olds need to be delivered within 30 days of the sale, unless prior arrangements have been made. All the bulls have various testing requirements that are timely. We will deliver free to Central points west of the Mississippi. East of the Mississippi a nominal drop fee of \$150 per bull will be charged. We would still like to coordinate a central point to reduce the number of stops your cattle have to make before arriving to you. Your cooperation would be appreciated on this matter.

Central points will not be designated until we can see where cattle are going as we try to accommodate all cattle on the load. We choose Stockyards, Vet clinics, and select ranches that can accommodate the semi truck and multiple head of cattle. The Delivery Department will call prior to coming to make this spot known. If you have suggestions to a central point, please let us know. Please note, all charges incurred at the said central point will be yours.

Again, we thank you in advance for your assistance and cooperation on this matter. It will keep the bulls from being on the truck too long and therefore allowing your bulls to arrive to their new home in the best condition possible.

## **Let Us Know . . .**

In the interest of better serving you, our customers, we are making every effort to better expose Stevenson Genetics through our customers. We are constantly networking with many order buyers and feedlots, the next level of our segmented industry. Through a more collaborative working effort, between ourselves (the seedstock provider), yourself (the commercial producer) and the feeding sector; we can eventually close the gap and meet the demand for a more consistent and high quality product, our most rudimentary obligation.

**Let us know** when you get ready to market your calves. Whether you sell them in the country, through a barn or on the video, we can assist in your marketing needs and give you some added market exposure. Many feeders are looking to Stevenson Genetics for superior groups of cattle.

## Don't let 'em leave home without one!

If you have calves to market, don't let them leave home without an AngusSource® tag. AngusSource adds value to your Angus-sired feeder cattle and replacement heifers by:

- Guaranteeing Angus genetics
- Verifying source and age
- Opportunity to qualify for Certified Angus Beef® regardless of hide color.

Visit [www.angussource.com](http://www.angussource.com)

To Register for Your Superior Buyer Number

Call 1-800-422-2117

This sale will be broadcast on [www.SuperiorLivestock.com](http://www.SuperiorLivestock.com) and RFD-TV, Dish Network channel 231 and Direct TV channel 379.

A preview on a per lot basis is available at [www.SuperiorLivestock.com](http://www.SuperiorLivestock.com) as well as our website [www.StevensonBasin.com](http://www.StevensonBasin.com).

For a buyer's number or additional information regarding our satellite sale, please call Superior at Fort Worth, TX 1-800-431-4452

**Bred commercial females sell at  
8:00 a.m. MST on Tuesday, December 2**

### **Terms & Conditions for Bred Commercial Females**

1. Bred females will be sorted and sold according to age, size, ranch origin and calving date.
2. The buyer has the option of five head up to the entire grouped lot.
3. They have been set up with Preg Guard Gold 10 vaccine guidelines. Heifers received first shot prior to breeding and second shot after November 1. Cows receive annual booster shot after November 1.
4. They have been poured with Dectomax or Ivomec after November 1.
5. All females have legible BANGs tag numbers, silver identification tag or registration tattoos.
6. All females have documented ear notch biopsy BVD-PI negative results.
7. All females are tested negative for Brucella Abortus.
8. All females will be preg checked safe with calf, unless otherwise stated. They will be preg checked by a licensed veterinarian, prior to delivery.
9. All females are descended from Stevenson Genetics' bloodlines and bred to Stevenson Genetics bulls.
10. Females will be available for viewing in sale lots at Stevenson Genetics as early as November 24. They can be viewed at [www.superiorlivestock.com](http://www.superiorlivestock.com) on a per lot basis any time prior to the sale.
11. The commercial female sale will be conducted and clerked as a Superior Livestock event. Interested buyers must register for buyer numbers with Superior Livestock at 1-800-431-4452.
12. Delivery - Superior will oversee load out at delivery and payment upon delivery. Superior has the option as the buyer representative to sort back any cattle that "don't fit". Stevenson Genetics will assist with arranging trucks for delivery and providing appropriate health paperwork.
13. Delivery cost is at the buyer's expense.
14. Purchase payment is due on sale day.

### **Stevenson Genetics Guest Consignors**

*Each year, top Stevenson Genetics customers consign their best.*

*We would like to recognize them and express our sincerest appreciation for their continued support.*

#### **C A RANCH**

**Page Anderson - 406.285.4548**

The CA Ranch is a family owned and operated cow-calf operation with headquarters at Three Forks, Montana. The ranch runs approximately 2000 mother cows in Gallatin, Madison, and Meagher counties. Buck and Marcia Anderson purchased the ranch in 1959. It is currently managed by the next generation: Page, Frank, Kathy and Anita. Cattle are the primary business, although the ranch also runs a guided hunting camp for elk and deer.

The heifers offered in this sale are the result of a program which has focused on developing moderate framed, functional cows that can thrive in a low input, low labor operation. Cows are expected to winter on pasture, calve on their own and breed back while bringing in a superior calf. They have been handled on foot and on horseback. CA practices a strict culling program. Bad feet, udders, disposition, or mothering ability are culled without exception. Careful selection, combined with 16 years of an intensive AI program make this a superior offering of heifers backed by Stevenson genetics.

#### **HUGHES NEWFORD RANCH**

**John & Betty Sampsel - 406.566-2700**

The Hughes Newford Ranch has been operated in the foothills of the Little Belt Mountains of Central Montana since the late 1800's.

At Hughes Newford the Sampsel's have developed a cow herd that are able to thrive in extreme environments. Most winters the cows are not supplemented with hay until February. Calving begins in April and the cattle are expected to wean a 625# calf the last week of October.

Heifer calves are wintered at the home place, and summered on leased pasture in the Missouri Breaks, north of Winifred, MT.

The heifers offered in this sale have been Ultrasounded to calve within a 45 day period beginning the last few days of March.

Bred to calving ease sons of BOYD ON TARGET and STEVENSON CE DELUXE 1914 purchased from Stevensons. This fancy set of heifers promise to calve on their own and bring in an easy fleshing, high growth calf next fall.

Your Angus Source

Longest Established Annual Bull Sale

Fellow Cattleman,

We sincerely appreciate your interest in these bred females and certainly believe this offering emphasizes our foremost efforts in genetic progression. As in the past, our goal is to emphasize quality in volume. This is a premier set of females offering plenty of selection, outstanding cattle, flexible calving dates all following proper health protocol.

As of sale book production, most of these females are still pretty spread out – out to pasture, up in the mountains and scheduled to start returning home late October. **A more detailed commercial bred female booklet will be published early November and mailed to all interested buyers.** Please let us know if you'd like to receive one and we'll be sure to mail this separate book.

For a quick overview, this commercial bred female sale will offer several different age groups and calving intervals for your selection. Highlights would include:

- Bred to the best bulls in the industry. Featured sire matings would be to STEVENSON CE DELUXE 1914, DIAMOND JUSTICE 901S, BASIN RAINMAKER 747L and BASIN FRANCHISE P142.
- Synchronized and AI bred heifers grouped by size and calving dates. Calving dates start in January with several sets available calving into March.
- Synchronized and AI bred cows. Same as the heifers, they will be sorted according to age and calving date.
- Select groups of sexed bull or heifer calf pregnancies.
- Cows from all age groups – featured two and three year old cows. Running age cows as well.
- Pasture bred groups of heifers and cows. Bred to the same bulls as our registered females, both heifers and cows will be offered in sorted calving intervals.
- Select group of F1 baldy heifers out of our recipient cows and Line 1 Holden Hereford Bulls.
- One group of fall calving pairs, they calved between August 20 and September 30. Calves are sired by Diamond Max 180N, Diamond Payload and HA Image Maker 6550. They sell open and ready to breed.
- Several groups of these heifers and cows were sorted from our registered herds. Registration papers are available for an additional \$250 apiece. Contact us for further information.

Once again, a complete sale booklet will be available early November for these commercial bred females. Please call us at 406-423-5750 to request your free copy.

The cream of the industry will be featured in this offering. We thank you in advance for your participation and look forward to seeing you on sale day.

Sincerely,

*The Stevenson Family*

**Bred commercial females sell at  
8:00 a.m. MST on Tuesday, December 2**

## Mikkelsen Watson

**Spike Mikkelsen – 406.423.5213**

Spike Mikkelsen grew up raising cattle in the Judith Basin. He, along with his wife Judy and their five children continue the tradition today. Mikkelsen's raise a small registered Angus herd out of Stevenson genetics. Along with the registered and recip cows, Spike and Judy run a predominantly black commercial cow herd with a strong Stevenson influence.

## Sam Hill

**Sam Hill – 406.788.6404**

Sam Hill was raised on a multi-generational Judith Basin cow calf outfit. Today, he and his young family run a diverse livestock operation. They have implemented top end Stevenson genetics in both natural service and AI programs to better pursue breed leading performance and maternal genetics.

## DEERFIELD COLONY

**Eli Stahl – 406.538.7824**

**Gene Stahl – 406.350.2054**

Deerfield Colony has purchased bulls from the top of the Stevenson program for the past twenty years. The cow herd has been based on top maternal sires including BASIN EMULATION 5653, BASIN RAINMAKER 814Z and MED ROCK TRAVELER JR. In recent years BASIN MAX 602C, BASIN MAX 104J, DIAMOND RAINMAKER 154E and sons of PAYWEIGHT have been used heavily in the herd.

Year after year, Deerfield calves have topped Superior's Corn Belt Classic. Last month their 400 steer calves weaned straight off the cow at 789 lbs (with no steers held back). This means that the gross production per cow averaged well over \$900.

Bred to PAYWEIGHT sons, the calves out of this years offering are sure to tip the scales and top the sales next fall and continue to wean easy fleshing, high production calves for many years.

# TWO YEAR OLD BULLS

---

These coming two year old bulls were selected last spring from the top end of our March and April yearling bulls. Included in this unparalleled offering are a number of bulls used to breed cows and heifers in the Stevenson Genetics herds. These bulls were raised from birth to weaning without creep. From weaning these animals were fed a high roughage growing ration.

The catalog provides complete performance information for each bull. An explanation of the information is printed on page 2. Bulls are put into contemporary groups at weaning based upon their ranch origin and the conditions they were raised under, maintaining these groups through yearling and ultrasound makes the data and ratios provided more meaningful to our customers. Because they are in different contemporary groups though, a ratio of 100 will not necessarily correlate to the same weight between the different groups.

These bulls are guaranteed breeders. They have all passed a breeding soundness evaluation including a semen test. All bulls offered in the sale have tested BVD-PI negative. All non-virgin bulls are indicated in the footnotes and have been trich tested per current Montana requirements. Current weights and scrotal measurements will be available on sale day.

For buyers wishing to purchase closely related bulls, many full, three-quarter and one-half brothers are offered in this sale. This line-up includes:

67 sons and grandsons of VERMILION PAYWEIGHT  
14 other DATELINE bred bulls

25 MONEYMAKER sons along with  
20 BOYD ON TARGET 1083 sons and grandsons

21 BASIN MAX 602C sons or grandsons

15 FOCUS bred bulls

RETAINED INTEREST – we are selling FULL POSSESSION and ½ REVENUE-SHARING INTEREST in every bull in this sale. The bull you purchase is completely in your control regarding how you handle the bull and your natural service use. You receive 100% salvage value of the bull. Retaining ½ revenue-sharing semen interest simply allows Stevenson Genetics the right to share in collection of semen, use of semen in our herds and the right to share in semen sale revenue if semen sales become a possibility.

Realistically, we will collect semen on a very small percentage of the bulls selling. It will be an even smaller number of bulls that will market semen. However, we realize that many promising bulls are identified after they have proven themselves in natural service. If you have any questions or concerns about our retained interest policy, please contact any Stevenson Genetics representative.

This bull has tremendous performance and is a full pedigree bull to our herd sire DIAMOND PAYWEIGHT 738N. He ranks in the top 10% of the entire breed for YW, Scrotal, REA, \$F, \$B and is balanced ranking in the top 20% for MILK, 25% for WW and top 30% for Marbling. The dam of LOT 5 is a third generation donor with outstanding carcass and 46 progeny have been scanned with average ratios of IMF 106 and URE 104. Her 2003 son was a lead off bull and sold for \$10,000 to Loomis Cattle Co. Full pedigree bulls to LOT 5 include our high selling 2007 calf at \$14,500 to Scott Stock Farms, of Canada, and a \$10,000 full brother to Deerfield Colony. Full brother sells as LOT 19.

LOT 8 is a balanced trait leader offering a big spread for EPD numbers. He ranks in the lowest 10% for BW and top 15% for WW EPD and top 20% for YW EPD. He recorded 104 IMF and 101 REA. His dam records 2 NR 104, 2 YR 108, 2 IMF 101 and 2 REA 106. His sire was the \$26,000 high selling bull in our 2005 sale and is a featured herd sire with ORigen.

LOT 316 is outstanding bull to end the 2 year old bull offering, he ranks in the top 10% for WW, top 15% for YW, top 2% for MILK, and top 20% for Scrotal EPD after recording a 38 cm scrotal at a year of age. LOT 316's maternal grandam is a young cow with a record of 2 NR 106, 2 YW 107, and 2 REA 105.

Two Year Old Bulls

# BULL CALVES

---

The 450 bull calves offered in the 2008 Stevenson Genetics Fall Sale are the top end of the natural and embryo calves out of mature cows born at Stevenson Genetics in January and February. Calves out of first calf heifers are held over for our spring sale and calves born in March and April will be sold as long yearlings in the 2009 Fall Production Sale.

These calves were all born and raised in Central Montana near Hobson. The calves in this offering were raised from birth to weaning with no creep. After weaning, the calves are fed a high roughage growing ration. These bull calves were weaned and weighed from September 9<sup>th</sup> – 12<sup>th</sup>.

Complete performance information is provided for each bull. An explanation of the performance information is printed on page 2 of the catalog. These bulls are members of large contemporary groups within the Stevenson Genetics ranches. Because they are grouped by the individual ranch and growing conditions, a ratio of 100 will not necessarily correlate to the same weight between the different groups. These bulls have all tested BVD-PI negative. Current weights on the bull calves will be available sale day.

For buyers wishing to purchase closely related bulls, many full, half and three-quarter brothers are offered in this sale. The sale includes:

81 MONEYMAKER sons along with  
40 sons and grandsons of BOYD ON TARGET 1083

46 sons and grandsons of BASIN MAX 602C

45 grandsons of PAYWEIGHT

38 sons of CE DELUXE along with  
31 FUTURE DIRECTION bred bulls

25 FOCUS bred bulls

27 sons and grandsons of IMAGE MAKER

33 KING sons

Wintering arrangements are available on bull calves purchased in the sale. For \$250 per head we will winter these bull calves until March 20<sup>th</sup> and deliver them at that time. Wintered bulls will have yearling and ultrasound data collected and recorded to AHIR. They will also pass a complete breeding soundness evaluation, including semen test, prior to delivery in the spring.

While these bulls are guaranteed breeders, we recommend that bulls not wintered at Stevenson Genetics be fertility tested by a certified veterinarian prior to use next summer.

RETAINED INTEREST – we are selling FULL POSSESSION and ½ REVENUE-SHARING INTEREST in every bull in this sale. The bull you purchase is completely in your control regarding how you handle the bull and your natural service use. You receive 100% salvage value of the bull. Retaining ½ revenue-sharing semen interest simply allows Stevenson Genetics the right to share in collection of semen, use of semen in our herds and the right to share in semen sale revenue if semen sales become a possibility.

Realistically, we will collect semen on a very small percentage of the bulls selling. It will be an even smaller number of bulls that will market semen. However, we realize that many promising bulls are identified after they have proven themselves in natural service. If you have any questions or concerns about our retained interest policy, please contact any Stevenson Genetics representative.

### 401 DIAMOND MONEYMAKER 8347

The heaviest weaned bull ever from Stevenson Angus, LOT 403 was the number one performer within his large contemporary of 206 head. Every visitor found him this summer. Very attractive with exceptional muscle dimension, free flowing structure and length of body, he caught everyone's attention. He summered in a big group, in large pastures and impressively led all weaning weights where he recorded an Adj. 205 of 938 lbs. A standout herd bull, LOT 403 is poised to replace his \$810,000 valued sire MONEYMAKER. His dam and grandam record 2 NR 119, 1 YR 104 and 4 NR 105 with 3 YR 105. A multi-trait EPD leader, this bull has a big future!
